West Metro Awarded Class 1 ISO Status

New Insurance Rating Will Save Residents, Businesses Millions

Lakewood, CO – West Metro Fire Rescue has been awarded a Class 1 ISO rating, the highest level recognized nationally by the Insurance Services Office. The rating is a gauge of a fire agency's ability to serve its residents and business owners, and is awarded based on a number of key factors- including staffing, apparatus, training, 911 communications, and water supply. For business or homeowners in West Metro's district, the Class 1 rating is expected to result in millions of dollars in savings on property insurance.

"Our new ISO rating was driven by West Metro's commitment to our district- to always be looking for opportunities to improve our service," said Don Lombardi, Fire Chief, West Metro Fire Rescue. *"The new rating is validation for our firefighters and staff that what we've been doing is creating a safer community."*

Only 0.5% of approximately 46,000 fire agencies across the country earn a Class 1 rating. And, only 60 of the 239 internationally-accredited fire agencies have a Class 1 rating. Many insurance companies use the ratings to set property coverage rates. In West Metro's district, a typical homeowner, with a home valued at \$300,000, could see annual insurance savings of around \$200. The new rating could save business owners approximately 3% to 5% on commercial insurance premiums depending on building construction.

The ISO system ranks for a Class 1 (the best) to Class 10, which is no fire coverage at all. The Insurance Services Office completes an evaluation of the nation's fire-response agencies (around 46,000) about every 10 years. Its independent rating is based on a number of factors that relate to the overall effectiveness of fire protection services.

Insurance companies will be informed of West Metro's new rating, beginning May 1.
