ADDITIONAL INFORMATION OR DESCRIPTION IF NEEDED:

As a Design Professional meeting the requirements of the West Metro Fire Protection District, I certify that (pick #1 or #2):

[1]

Initial The fire alarm system installed in the above referenced building is NOT a required system in accordance with the applicable edition of the IFC. Based on my technical expertise and evaluation, the building will remain in compliance with the current version of the International Fire Code once the fire alarm system is removed in its entirety. Further, removal of the system will not impact any other life safety system present, or any adjacent tenant spaces and their required level of fire protection. On behalf of the building owner, this application is a request for approval to remove the fire alarm system in its entirety.

[2]

Initial The fire alarm system installed in the above referenced building IS a required system in accordance with the applicable IFC. HOWEVER, the following components or functions are NOT required and may be removed:
 Detection (Smoke/heat/etc) Except those required for other functions listed above or as otherwise required by the Fire Code.
 Manual Pull Stations
Removal of these components will not affect the functionality of any interconnected functions listed above. On behalf of the building owner, this application is a request for approval to remove the non-required portion of the fire alarm system indicated above in thier entirety.

FIRE DEPARTMENT USE ONLY

WMFPD has made the following determination(s):

- The entire fire alarm system exceeds the requirements of the currently adopted edition of the IFC and may be removed entirely.
- Those portions of the existing fire alarm system listed by the Design Professional that exceed the requirements of the currently adopted edition of the IFC may be removed. All other components must remain operational and shall be maintained in accordance with NFPA 72.
- Based on the information provided, the request for fire alarm system removal or modification is disapproved for the following reason:

A full set of plans shall be submitted for approval for all fire alarm changes, modifications, or reductions as a result of this form.

NO WORK shall commence until a permit for the work has been issued.
